Easy waste separation!

① **Peels**
② **Pineapple after peeling & coring**
③ **Pineapple core**
Each is collected separately, making sorting and reuse simple.

Mixed sizes? No problem!

Automatically detects pineapple size at loading, and peels with the perfect setting (patent pending).
Mixed sizes? One setting does it all!

Other models available!

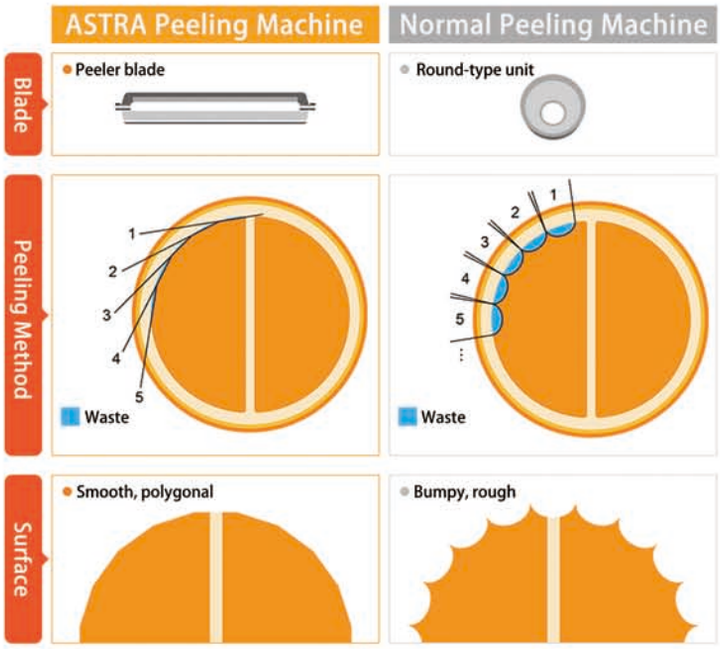

In addition to this model, we offer peeling machines for a wide variety of fruits, including apples, oranges, mangoes, melons, and more.
Please feel free to contact us.

Why choose ASTRA peelers?

The peeler method delivers it all:
speed, smooth finish, high yield, and less dripping.
A peeling technology perfected by ASTRA's expertise.

POINT!	ASTRA Peeling Machine	Normal Peeling Machine
	Peeling with peeler blade	Peeling with round-type unit
	Fast speed	Slow speed
	Smooth surface	Bumpy, rough surface
	High yield rate	Low yield rate
	Less juice dripping	More juice dripping
	Peeling depth adjustable	Not good at adjusting depth

Used worldwide!

ASTRA peelers are adopted in over **60 countries** worldwide, thanks to their **high performance** and compact, easy-to-ship design.

- ▷ **Value-added** uses - dried fruit and jam (worldwide)
- ▷ World's **largest kiwi factories** (New Zealand)
- ▷ **Major supermarket** chains (Taiwan)
- ▷ Distilleries producing **lemon liqueur** (Italy, Australia)
- ▷ Cut fruit service for **hospital meals** (USA)
- ▷ **Large-scale processing** in cold storage(UAE)
